-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Response to Amendment

1. Applicant's arguments filed 3/12/2004 have been fully considered but they are not fully persuasive.

Election/Restrictions

2. Claims 1-6, 10-13, 16-18, 21-22 and 27-28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the paper filed 3/12/2004.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7-9, 14-15 and 23-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over CN 1069432.

'432 teaches a binder comprising petroleum pitch and vegetable oil (at 50% or less), such as corn oil (see pages 4-11 of translation), for sand casting.

Art Unit: 1762

'432 does not refer to the petroleum product as mineral seal oil, but it would appear that the petroleum product of '432 and mineral seal oil are similar materials.

'432 does not teach the VOC or benzene levels, but does disclose that the composition does not have aromatic hydrocarbons (p 10), which would include benzene.

The applicant has argued in the 3/12/2004 response that the composition is not a release composition. However, the '432 reference clearly teaches that the composition aids in separating the cast part from the sand mold, and effectively prevents the defects of sand attachment (p 10). The applicant further argues that the composition “ would most likely fall outside the VOC limits set forth in the claims”. However, the applicant has not attempted to prove this.

5. The rejection of Claims 7-9, 12-15, 19-20 and 23-26 under 35 U.S.C. 103(a) as being unpatentable over Laemmle et al (4522250), is withdrawn because of the response filed 3/12/2004.

'250 does not teach sand molds.

Allowable Subject Matter

6. Claims 19 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1762

7. The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not disclose nor suggest the coating method of claim 7 wherein the coating composition comprises vegetable oil, mineral seal oil and a long chain fatty acid.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erma Cameron whose telephone number is 571-272-1416. The examiner can normally be reached on 8:30-6:00, alternate Fridays off.
